

SDG 12 – Publication of a sustainability report

MONOGRAF: PERKEMBANGAN SUSTAINABILITY REPORT DI INDONESIA (PENDEKATAN SYSTEMATIC LITERATURE REVIEW)

This monograph provides a detailed overview of the development of sustainability reporting research in Indonesia related to corporate governance. Specifically, it addresses research methods, measurement of corporate governance and sustainability reporting, research issues including variables and theories underlying the research. This will help to identify research directions on the relevance of corporate governance and sustainability reporting in accounting in the future.

The monograph begins by providing an overview of the concept of sustainability reporting and its importance for corporate governance. It then discusses the development of sustainability reporting research in Indonesia, focusing on research methods, measurement, research issues, and theoretical foundations.
