

### 13.3 Environmental education measures

#### 13.3.4 Indicator:

### Inform and support government

Universitas Sriwijaya actively engages in providing information and supporting government programs related to community-based climate change initiatives. The university collaborates with various community organizations and government agencies to raise awareness about climate change and its impact on local communities. Through research, education, and community outreach programs, Universitas Sriwijaya contributes to the development and implementation of sustainable practices, aiming to mitigate the effects of climate change at the grassroots level. This involvement underscores the university's commitment to environmental stewardship and its dedication to fostering positive change within local communities.
