

SDG 15 – Educational programmes on ecosystems

Dive Into Nature: Raising Youth Awareness on Sustainable Marine Ecosystem Webinar

Educational programs on ecosystems in Indonesia play a crucial role in fostering a deeper understanding of the country's diverse natural habitats, their significance, and the importance of their preservation. Moreover, these educational programs also aspire to inspire the youth of Indonesia to become agents of change in environmental conservation, promote sustainable practices, and safeguard the biodiversity that serves as a precious asset to this nation.

Sriwijaya University's agriculture faculty The faculty held a webinar entitled Dive Into Nature: Raising Youth Awareness on Sustainable Marine Ecosystem. This webinar is both teaching and training that is directly related to marine ecosystems such as fish and plants in the sea.

This webinar is open to the public by registering on the link provided then continuing by following the existing procedures and it's free. Webinar participants will gain useful knowledge related to marine ecosystems.
